FIVE PERSONS WOUNDED.

Desperate Fight Precedes Arrest of a
Colored Man.

Jacksonville, Fla., May 12.—Five persons were wounded in an attempt to arrest a negro for shooting a negro woman. The negro, Edward Coleman, shot the woman through the left arm. Policemen W. H. Cahoon went to the place. Coleman fired on him. The officer telephoned to police headquarters. Deputy Sheriff Vizant and five policemen, armed with pistols and rifles, rushed into the house. Coleman barricaded himself in his room and continued the fight, but later surrendered.

The wounded are: Policemen Kirby Foster and O. L. Wadsworth. Deputy Sheriff J. A. Vizant. Mary Wilson (colored), and Edward Coleman, the prisoner.

ACCOMPLISHES LITTLE

MEETING OF COMMITTEE TO SET
THE OMAHA STRIKE DEVOID
OF RESULTS.

EACH SIDE IS DETERMINED

Governor Mickey Thinks It Will Re-
quire Considerable Effort to Bring
About Arbitration—Eventful Day
for the Strikers—Negotiations Still
In Progress Looking to a Settlement
of the Great Northern Dispute.

Omaha, May 12.—Governor Mickey met with the two committees of business men and labor leaders at night with the view of reaching a plan of settlement. The meeting lasted three and a half hours, and at its conclusion the statement was made that it had accomplished little that was satisfactory to either side. It was largely devoted to presenting the views of both sides, and was given up mostly to statements of the positions of the proprietors and their employees. Governor Mickey stated that two committees were empowered to call another meeting at such time as was thought necessary. Each side appears to be thoroughly determined and the governor thinks it will require considerable effort to bring about arbitration.

Monday was another eventful day. Five hundred laundry workers were locked out, and the district court granted a sweeping injunction restraining members of the waiters' and cooks' unions from interfering with the restaurants that are opening up for business with nonunion employees. Nearly 200 strike-breakers were brought to the city, although less than 10 per cent of them went to work. Chief of Police Donahue has given an ultimatum that he will cause the arrest of every man who is brought to town and refuses to go to work.

More wagons were moving than on any day since the strike began. They were mostly driven by owners, clerks and barn employees, and a few non-union teamsters. Several jobbers stated that they were getting into position to fill all orders and expressed the belief that the strike would have little effect on their business after a few days more of securing new men.

NEGOTIATIONS PROCEEDING.

No Settlement of the Great Northern
Trouble Effectuated.

St. Paul, May 12.—No agreement was reached Monday between the Great Northern officials and the trainmen's committee, but negotiations are still on, and it is anticipated that an amicable settlement will be effected at a conference to be arranged today. The situation closed last night with a note from the committee stating that the men could not accede to the company's 3 per cent proposition, made by Manager F. E. Ward at the morning meeting, at the result of the trainmen's vote sustaining the committee was announced. Mr. Ward's proposition was one that he offered verbally before the taking of the poll, but at the request of the trainmen it was yesterday put in writing. The proposition is that the Great Northern agrees to restrict the use of double-headers to 3 per cent of the total mileage of freight trains, but reserves the right to run double-header trains on all its divisions as long as the total mileage of such trains does not exceed the 3 per cent limit.

To this the men object. In their reply the committee stated that the double-header principle was still involved.

What appears now to stand in the

way of a settlement is the demand of the committee that double-heading be restricted to certain divisions of the road. The company's stand is, that as long as it keeps within the 3 per cent limit it makes no difference where the double-header service is used.

MARKED BY VIOLENCE.

First Day of Teamsters' Strike at
Grand Rapids, Mich.

Grand Rapids, Mich., May 12.—The first day of the teamsters' strike was characterized by several acts of violence on the part of the strikers. The worst one, in which blood was spilled, occurred late in the afternoon when the City Garbage company, under contract to do the teaming for the Century Fuel company, set two nonunion men at work hauling coal. A crowd of strikers blocked one of the wagons and assaulted Manager Albert Carroll of the fuel company, who went to the driver's rescue. Carroll downed one striker, but was pounded by others. He sustained a bad scalp wound and severe bruises on the body. Carroll swore out warrants for the arrest of six strikers, two of whom have been captured.

NEGOTIATIONS AT AN END.

Laundry Workers and Employes at Chi-
cago Will Continue the Fight.

Chicago, May 12.—Negotiations looking to the settlement of the laundry workers' strike are at an end. After a five hours' session at night the joint committees of employers and representatives of the union, finding that they were not getting any nearer, agreed to disagree on terms and broke off further negotiations.

Chairman Barkey of the employers says the only thing to do is to open with nonunion help if necessary.

The union's representatives stood firm for the first clause in their proposed agreement, which stipulates that none but members of the laundry workers' union be employed.

Engineers Will Stand Alone.

Chicago, May 12.—The Packing Trades Council will not call out the union workmen of the stock yards in sympathy with the strike of the engineers. This action means that, so far as the strike is concerned, the engineers will stand alone.

HUMBERT FRAUD CASE.

Three of the Accused Committed for
Trial on Charge of Forgery.

Paris, May 12.—Magistrate Leydat has concluded his investigation of the Humbert fraud case and has decided to commit Theresia Humbert, her husband, Frederick, and her brother for trial on the charges of forgery, the use of forged documents and swindling. The magistrate dismisses the cases against Eva Humbert, Theresia's daughter, and Marie Daurigac, her sister.

The case against Mme. Humbert, her husband and brother, probably will be heard in July.

JACKSON MEN SUBPOENAED.

Will Be Taken to Winchester to Testify
in Jett Case.

Lexington, Ky., May 12.—Curtis Jett, in jail at Winchester, on the charge of murdering J. B. Marcus at Jackson, has filed a petition praying for a writ of habeas corpus. The writ was issued and made returnable Tuesday. The jailer against whom the writ is issued had subpoenas drawn for B. J. Ewen, Dr. Kash, Kelly, Kash, James Hargis, Sheriff Edward Callahan, Elsie Noble, William Combs, J. E. Patrick, S. S. Taulbee and W. H. Blanton, all of Jackson.

These men, it is alleged, were either witnesses to the assassination or in positions from which they might have seen the assassin. The witnesses cannot reach Winchester Tuesday and it is probable that the hearing will be continued until Wednesday. If the witnesses refuse to come on subpoenas, attachments will be issued and they will be brought here.

FOREST FIRES RAGING

HUNDREDS OF MEN ARE OUT
FIGHTING THE FLAMES IN
PENNSYLVANIA.

MUCH PROPERTY DAMAGED

Fifty Oil Well Rigs and Nine Thou-
sand Cords of Chopped Wood De-
stroyed Near Ormsby—One Family
Forced to Leave Home and All Are
Missing—Great Alarm Felt at Sew-
ard, Where Men Guard Powder Plant.

Bradford, Pa., May 12.—Forest fires are again raging in this vicinity. Near Ormsby fifty oil well rigs were destroyed. Nine thousand cords of wood, chopped and piled in the forest to be used in the manufacture of wood alcohol, were consumed. Hundreds of men are at work endeavoring to divert the course of the flames from endangered oil wells and other property. The fire is moving rapidly through a region where many oil wells are located and there is no absolute way of checking its progress.

At Timbuctoo another forest fire is raging. A family living in the woods near Ormsby was compelled to leave the cottage in which its members found shelter, and they are missing. Whether they are lost in the woods or have been overcome by smoke and flame is unknown.

The fire in the Laurel Hill mountains is assuming dangerous proportions and a small army of men has been fighting it in the eastern end of the county since last Friday night. The greatest alarm is felt at Seward, where a score of men are guarding the Cambria Powder company's plant. The fire is burning fiercely within a quarter of a mile of the company's buildings. The mountains on both sides of the Conemaugh river at Bolivar are ablaze and much valuable timber in the area covered by the fire already has been destroyed. At Derry and Bredenville the farmers have banded themselves together to fight the flames.

The town of Vintondale is threatened with destruction by a forest fire, which is raging there. Fire engines and men have been sent from Johnstown and Altoona. The place is entirely surrounded by timber, nearly all of which is ablaze.

SERIOUS FLOOD IN KANSAS.

Three Lives Lost and Much Property
Destroyed.

Topeka, Kan., May 12.—Owing to heavy rains in many parts of Kansas, serious floods are reported, resulting in loss of life and destruction of property. The Republican river is spreading over thousands of acres of lands, destroying wheat and corn. The central branch of the Missouri Pacific has been forced to suspend traffic. Mrs. Louise Sturden was drowned in Buffalo creek, near Randall, and Patrick Murray and his son were drowned in Cheyenne creek, near Jamestown.

MUCH DAMAGE IN IOWA.

Heavy Rain Washes Out Railroad
Tracks and Injures Grain.

Sioux City, Ia., May 12.—Five inches of rain has fallen here in forty-eight hours ending at 1 o'clock Monday. The Chicago and Northwestern railway's line lost 600 feet of track by a washout at Bronson, and the Omaha road has a bad washout inside the city limits. Country roads are impassable, great damage has been done in towns by the flooding of basements, and the corn already planted is generally washed out.

TWO ARE DROWNED.

Try to Ford a High Stream in Ok-
lahoma.

Oklahoma City, Okla., May 12.—Minnie and Cordie Briggs were drowned while trying to ford Big Beaver creek in Comanche county. The creek is out of its banks on account of the heavy fall of rain during the past twenty-four hours.

INVESTIGATION COMPLETED.

Inspectors Finish Overhauling Wash-
ington City Postoffice.

Washington, May 12.—Postoffice inspectors have completed an investigation of the Washington city postoffice. Postmaster General Payne said that a corps of inspectors has been thoroughly overhauling the local office for some time. Their report, however, has not yet been submitted and the results of the inspection have not been made known. Acting Superintendent Fones of the free delivery division and his assistant, Postoffice Inspector in Charge Thorpe of New York, are making rigid inspection of the files of the free delivery service and the former is proceeding with great caution in signing the great bulk of papers which have to be approved by the office every day. Much of the mail has been signed perfunctorily on the authority of a subordinate official who initials the papers, but the current business of the free delivery service is now being subjected to a careful examination as a necessary incident to the investigation.

FOUR NEGROES KILLED.

Race Riot in Louisiana Logging Camp
Then Dies Out.

New Orleans, May 12.—There has been a little race riot in Saint Tammany parish. An insolent negro was beaten with an ax-handle by a white grocery clerk. The negroes armed and a pitched battle with white citizens followed, in which four negroes, one of whom was the aggressor, were killed. Peace was then restored. The affair took place in the logging camp.

CRAZED FROM LIQUOR.

Kansas City Switchman Kills His
Wife and Wounds His Son.

Kansas City, Mo., May 12.—Crazed from liquor and the information that his mother was dying, Edward Clark, a switchman, aged fifty-two, shot and killed his wife, Hannah, aged forty-eight, and shot and seriously wounded his son, Edward, Jr., aged twenty-four, at their home here. Young Clark asked his father to go upstairs and be quiet. The latter whipped out a revolver and shot at his son four times, one shot taking effect. Mrs. Clark ran to her son's assistance, when her husband shot her through the heart, killing her instantly.

Robs an Iowa Postoffice.

WHY EXPERIMENT LONGER?

We Have the Only Known Cure in the World for

RHEUMATISM

Your rheumatism is just like all others, and for the same reason that they are not cured, you are not cured. There is only one known cure for rheumatism in the world, and that is MEDERINE. Everything else is simply "recommended." We have thousands of testimonials on file from people who were cured by MEDERINE after paying enough for other "cures" to buy a farm. Every bottle sold bears our absolute guarantee to cure. RHEUMATISM is caused by uric acid in the blood, which stiffens, enlarges and locks the joints and often renders you a cripple for life.

It Drives Out Rheumatism. Col. C. D. White, Towhee, Okla., writes: "You're the only remedy that kills Rheumatism in the system. One course of treatment cured me. I am now taking another treatment for my blood. It is the best medicine I ever used for these troubles. Thousands of Testimonials on file from thankful patients in all parts of the world testifying to the curative qualities of MEDERINE."

New Guinea Swamp Dwellers.

Recently the British government published an interesting report on the ape-like swamp dwellers of New Guinea. This strange race of human beings has dwelt in the swamps from times which antedate the oldest native traditions, and it is evidently on the highroad to becoming a distinct variety of animal. The swamp dwellers have lost three inches in stature and, while retaining muscular arms and a robust trunk, have short and slender legs. Walking always in water or on moist ground, they have feet with long, fragile looking toes, which they place on the ground "like wooden feet." Walking on hard ground makes their feet bleed, and, unlike the ordinary natives, whose skin is everywhere tight and smooth, the outline of their loins is obscured by folds of skin. "More ape-like than any human being that I have seen," is the concluding criticism of the British administrator. It is probable of course that this effort of nature to create a new species of amphibious human being with flat swimming and wading feet and degenerate physique will be defeated by civilizing agencies. Fifty years hence the last recognizable specimens of this queer race will perhaps have incased their paddle feet in boots. Perhaps their women will be wearing high heeled shoes. But the record of their existence is interesting.

The Ram Feast.

In Morocco the strange season of the Mohammedan new year, beginning March 9, is generally called "Al-el-Hanwela," the ram feast. The people of Morocco pay more elaborate attention to the item of sacrifice than any other Moslems. In every town a supreme offering of a ram or goat takes place at the door of the principal mosque. Immediately after it is struck by the official imam in presence of the multitude it is flung on the shoulders of a stalwart Moor, who, exerting his utmost strength, runs like a deer through the narrow streets, pursued by a rabble. The poor animal is pelted with stones by boys and is jeered at with execrations from every house, as it is reputed to be carrying the sins of the people. The man rushes along with his burden till he reaches the door of the cad's palace. If the animal is still breathing, the augury is excellent, for good luck is to be expected all through the year. But if the ram is dead all sorts of evil prognostications are muttered.

The Charitable Americans.

The Americans are looked upon by the peoples of Europe as the most wasteful persons in the world, and they do spend their money with a freedom unknown elsewhere because they have the money to spend. But with all their apparent carelessness there is no country in the world nor is there record of any in which the people devote so much to the welfare of the unfortunate and the wretched. The practice has become a habit and is looked upon rightly enough as an obligation. No one can free himself from it. Every one has a neighbor somewhere, and he will not fulfill his obligation merely by denying himself of some luxury or pleasure unless the self denial benefits his unfortunate neighbor.—Philadelphia Ledger.

He Was Mad.

A German who recently landed in this city was attacked upon the street and bitten by a vicious dog. A few bystanders rushed to the man's assistance, who was apparently more frightened than injured, and asked if the dog was mad. The German exclaimed: "Vot! Der dog mad? Vy he be mad? 'Tis me vot is mad!"—Philadelphia Ledger.

The Belief Was Mutual.

"Young man," said the professor as he grabbed a frisky junior by the shoulder, "I believe Satan has got hold of you."

"I believe he has," was the quick reply.—Exchange.

Happiness.

Happiness? Sooth to say, it does not exist, or, rather, destiny serves it out to us in fractions, in small doses, homoeopathically. Happiness is made up of halts. In the rough road stage of life, so long and yet so short, there are furtive moments when we sit down by the wayside and would gladly stop there, go no farther, sleep a little on the good earth which will one day embrace us. And immediately the march, march, of Bosses rings out and urges us on. A halt? Why? Up and on, quick; we must mark forward; life continues. We rise and take up our burden again. March! March!—Jules Claretie.

A Mystery.

A very small boy was watching his mother sew whalebones in her dress. "What are they, ma?" he asked. "Bones," she replied. "Whose?" continued the little fellow. "Mine," she answered. He regarded her a minute in amazement and then asked solemnly, "How did you get 'em out?"

His Shady Observation.

Miss Jones (to Mr. Brown, who has survived three wives)—They must get kind of mixed up in heaven with so many Mrs. Browns about. Mr. Brown—Oh, no; I calculate not. You see, now, they're all different shades of Brown.—Life.

Bismarck and Grant.

Sidney Whitman in his "Personal Reminiscences of Prince Bismarck" says:

"Bismarck's intimate friendship with Motley, the historian, is well known. He was also particularly attached to George Bancroft, so that when it became a question of Bancroft being recalled from his post of United States minister at Berlin Bismarck wrote specially to his friend Motley and begged him to intercede with the president to allow Bancroft to remain, and he did remain.

"Bismarck told me that when General Grant came to Berlin he accompanied him to see one of the reviews at the Tempelhofer feld. Grant was not well that day, and they had to drive out in a closed carriage. Grant looked downcast and told Bismarck that it worried him to think that he was to meet the Prussian soldiers sitting cuddled up in a carriage like any ordinary civilian. 'Never you mind that, General Grant,' Bismarck said. 'You may sit here hidden from view, but our soldiers are well aware what sort of fighting man is in this closed carriage.'"

A Parable Impeached.

The parable of the wise man who built his house upon a rock and of the other man who built on the sands was uttered before the "house with modern improvements" had made its appearance or modern sanitary science had been evolved. A rock foundation is unimpeachable for stability, but it may be very bad when it comes to a matter of drainage, whether it be for the disposal of sewage or of surface or ground water. A cellar excavated in the rock is usually a wet cellar, because the water leeches through the crevices and seams in the rock, and it is both difficult and expensive to trench and drain properly about the walls of a building in a medium so hard to excavate. To be sure, if the rock drops away quickly on a sharp grade this difficulty may be altogether a minor one. A good gravel soil is one of the best to build upon in respect both to drainage and to the stability of the house, and compact sand, if not subject to the action of running water, is a most excellent foundation and a thoroughly good medium.—Cosmopolitan Magazine.

Short and Long Courtships.

Young ladies in Russia are not at all averse to long engagements and use all sorts of artifices to stave off the wedding day as long as possible, while in Siam, where old maids are unknown, as all girls marry, the recognized length of an engagement is one month. If an engaged man in the Argentine Republic dallies beyond a reasonable time in leading his fiancée to the altar, he is heavily fined, and if a resident of the republic should fail to marry he is taxed until he reaches the age of eighty. In no country in the world are courtships so abnormally long as in Bohemia, where engagements commonly last from fifteen to twenty years. In fact, there recently died at the age of ninety-nine an old man who had been courting for seventy-five years and who was married on his deathbed.

A Marble Slab.

A writer in London Nature describes a white marble slab 2 inches thick and 35 by 70 inches, which is supported on stone posts and sags in the middle three inches out of level. It furnishes evidence that marble is in reality a fluid of enormous viscosity. This has some bearing on the question of the rigidity of the rocks composing the crust of the earth and the gradual adjustment of the earth's contour under gravity. The slab was placed in its present position in 1853.

Reason In Lowly Brains.

Bees know the time of day. Experimenters who feed them at a certain time each day find that they make no mistake in the hour.

The pigeons of St. Mark's, Venice, can tell tourists, who feed them as a matter of duty, from natives who do not. How? By their loitering? By their red guidebooks?

American horses driven without "blinders" are said to be less liable to fright than English horses which are made to wear them.

New Imposition.

Harris—Walters has been looking pretty sad since his daughter got married, hasn't he?

Correll—Yes. You see, he had no sooner got his daughter off his hands than he found he would have to put her husband on his feet.—Town and Country.

Taken at His Word.

He (after marriage)—What! You have no fortune? You said over and over again that you were afraid some one would marry you for your money.

She—Yes; and you said over and over again that you would be happy with me if I hadn't a cent. Well, I haven't a cent.

Idle Talks.

Industry is the foundation of every thing worthy, yet there are a great many idle people. An idle man or woman is a bad advertisement for any community. Investigation will reveal that it is the idle people who engage in bad scrapes.—Atchison Globe.

Read the Signs.

The Young Man—I have known for a long time past that you cared for me. The Lady—Really? How is that? The Young Man—From the fact that your people put themselves out of their way to snub me.

A Wasted Ornament.

Old Graybeard—It's a pity to keep such a pretty bird in a cage. Mrs. De Style—Isn't it a shame? How perfectly exquisitely lovely it would look in a hat!—New York Weekly.

WILLIAMS HELD TO THE GRAND JURY

James Williams Charged with
Forgery at Hearing is Bound
Over this Morning.

HE IS TAKEN TO DULUTH

This afternoon by Deputy United
States Marshall Sheehan—
Looks Serious for Him.

At the hearing had before the
United States commissioner at Lit-
tle Falls James Williams was held
to the grand jury on the charge of
forgery. He was brought back to-
day on No. 5 and was taken to Du-
luth this afternoon by Deputy United
States Marshall Sheehan to appear
before the grand jury. Assistant
Postmaster Grewco and other wit-
nesses also went to Duluth on the
same case.

At the hearing Williams is said to
have made a clean breast of the
whole affair, and the manner in
which he testified would indicate that
he did not take the matter very seri-
ously. It is thought that it will go
rather hard with him when he gets
before the grand jury at Duluth.

ARE COMING THIS WAY.

Representatives of the Bureau of Forestry
Coming to Northern Minnesota to
Study Forest Fires.

The bureau of forestry of the agri-
cultural department has assigned a
number of its officers to duty in the
heavily timbered regions of the
country to study forest fires. The
investigation will be comprehensive,
including the cause, how fast the
fires burn, what conditions favor or
hinder them and just what damage
they do to the soil and tree growth.

In connection with this detailed
duty the agents will observe the
methods of fire protection practiced
by the railroads and other owners of
timber lands and will also investigate
state fire warden systems, such as
that of Minnesota and the patrol
system in government forest re-
serves.

The bureau hopes to replace with
carefully gathered statistics vague
notions now existing relative to forest
fires. When the problem is solved
for any particular region the bureau
will be ready to recommend methods
of fire prevention and control for
private land owners and to suggest
forest fire legislation for the various
states.

J. H. Tompkins, with a small force
of assistants, has been assigned to
make the investigation in Minnesota,
Wisconsin and the timbered sections
of Michigan. Later in the season
the study of forest fires will be made
on the Pacific coast.

"It was always a miracle. Bur-
dock Blood Bitters cured me of a
terrible breaking out all over the
body. I am very grateful." Miss

BUILDING BOOM ON.

More New Houses Going Up This Spring
than During any One Period in
Many Years.

A walk about the city will con-
vince one that Brainerd is in the
midst of a building boom seldom
equaled. All over the city new resi-
dences are being built and it would
be difficult to numerate the owners
without going to considerable trouble.
The Third ward is having its share
of the boom, a great many houses are
being built in the mill district. Some
very substantial houses are being
erected, but of course most of them
are either working at the shops or
the mill.

A Sure Thing.

It is said that nothing is sure ex-
cept death and taxes, but that is not
altogether true. Dr. King's New
Discovery for consumption is a sure
cure for all lung and throat troubles.
Thousands can testify to that. Mrs.
C. D. VanMetre of Sherbertown,
W. Va., says: "I had a severe case
of bronchitis and for a year tried
everything I heard of, but got no re-
lief. One bottle of Dr. King's New
Discovery then cured me absolute-
ly." It's infallible for croup, whoop-
ing cough, grip, pneumonia and con-
sumption. Try it. It's guaranteed
by H. P. Dunn & Co., druggist.

RICHARDS AT CASS LAKE.

Tells of His Purpose in Coming to North-
ern Minnesota—Will be Logging
Next Winter.

Ex Governor W. A. Richards, com-
missioner of the general land office,
when interviewed at Cass Lake, said
that there was not the least doubt
but that the bulk, if not all, of the
pine on the ceded Chippewa reserva-
tion would be sold by sealed bids and
work begun before or about Decem-
ber. "There will be logging near
Cass Lake next winter," he said.
"Our purpose in coming to Cass Lake
is to see the town and to see the land
to be selected as a forest reserve.
We want to act intelligently and
have actual tests of what reforesta-
tion can do. The 225,000 acres of
land reserved from settlement on
which there will be left 5 per cent of
the standing pine will give the for-
ester of the bureau an opportunity
for practical test of the advantages
of reforestation. Ten sections will
neither be cut nor settled upon; these
will protect the beauty spots. We
are also making a personal inspec-
tion of the work done under Chief E.
L. Warren in examining the land
and classifying it as pine or agricul-
tural land. This personal knowledge
will make it possible to put the pine
on sale immediately we return to
Washington. We want to put the
whole tract of pine land or the pine
on the entire land on the market at
once and at the same time. We want
to make the sales immediately. It
will be unwise to throw open the
agricultural lands among the pine
lands until the pine is cut off, be-
cause it would be an incentive to the
settlers to cut the pine near and
would create a greater danger
through fire. We shall cut the pine
and then put that land and lands
near it on the lists for homesteads."

Denies Writing It.

EDITORS DISPATCH:

I have just been informed that I
am charged with writing the letter
which recently appeared over the
name of J. H. Warner, municipal
judge, and I want to say that I
neither wrote, dictated or had any
knowledge of this letter until I read
a part of it in the paper. I do not
agree with Judge Warner in what he
so poignantly sets forth in his letter.
I believe that the best way is to let
each branch of the city government
attend to its own business. I am
not a reformer nor do I wish to pose
as a reformer. The city is getting
along very well—better in fact than
ever before—and why not let it alone?
I believe that the mayor and city
council can be trusted to take care
of the interests of the city with-
out resorting to any extra efforts to
accomplish it. Yours,

W. A. FLEMING.

the list.

The sale was held yesterday after-
noon and was conducted by County
Auditor Mahlum and Judge Mantor.
It amounted to \$1113.46, the largest
in many years.

MUSIC AND DRAMA.

"THE FATAL WEDDING"

"The Fatal Wedding" from the pen
of Theodore Kremer, is the name of
a new comedy drama which will make
its initial production at the Brainerd
Theatre tomorrow night.

The scenes are laid in New York
City and treat of the machinations
of an adventuress who separates a
husband from his wife and children,
in order to win him for her own. In
this she is aided by a lover who, for
a consideration of \$20,000, places the
wife in a compromising situation
and, being discovered by the hus-
band, is divorced. The adventuress
is frustrated in her scheme to marry
this man through the efforts of a lit-
tle child, who overhears a conversa-
tion between the woman and her
lover. On the very day of the mar-
riage, this child brings her mother
to the church and as the knot is
about to be tied, she stops the cere-
mony. Her husband is shown the
proof of her innocence, the baffled
woman, who had hoped to be his
wife, drinks poison, and a reconcili-
ation followed between the divorced
couple. The play is replete with
comedy and abounds with scenes of
pathos that cannot fail to bring tears
to the eyes of the onlooker. Never
before has there been so touching a
picture as the efforts of the child to
prevent her mother's dispossession
from the little room that they call
"home, sweet home." The tender care
with which she nurses her sick brother
her prayers for help, the misery and
desolation of it all, creates that sym-
pathy in the human breast that
touches on to the quick. Seats now
on sale at Dunn's.

OLD AND NEW WAY.

Hyomei the Latest Scientific Discovery
for the Cure of Catarrh.

The discovery of Hyomei has
wrought a wonderful change in the
treatment of catarrh.

Prior to three years ago the medi-
cines ordinarily employed in the cure
of this disease were nauseating drugs
and worthless tonics. In some in-
stances they benefitted but the im-
provement was not lasting.

With Hyomei you take into the
air passages of the throat and head a
balsamic air that goes into the mi-
nutest cells, effectually killing all
germs and microbes of catarrh. It
enters the blood with the oxygen,
killing the germs in the blood, and
restores health to the whole system.
Many astonishing testimonials have
been received from those who have
been cured by Hyomei.

N. G. Durham, 23 Wellington St.,
Boston, Mass., writes: "I have suf-
fered from catarrh for a number of
years. I tried Hyomei and found it
the only cure for this disease I have
ever used."

Perhaps the strongest evidence
that can be given by doubters, is the
fact that H. P. Dunn & Co. have so
much faith in Hyomei that they sell
every package under a positive guar-
antee to refund the money if it does
not cure.

Now is the time to begin the use
of Hyomei. 8

SECOND STRIKE CALLED.

All Passenger Men on the Mobile and
Ohio Quit Work.

Jackson, Tenn., May 12.—The second strike on the Mobile and Ohio railroad was called in the afternoon, when all the men in the passenger service quit work. The train that arrived here at 6 o'clock in the evening was met by several hundred people, many of them being strikers. When the train left it was with Mr. Hawkins of St. Louis, an official of the road, as conductor and Traveling Passenger Agent Blair as baggage master. No attempt to stop the train was made.

St. Louis, May 12.—The strike situation on the Mobile and Ohio railroad system is daily growing more serious. Three freight trains were moved out of East St. Louis Sunday. One of these was deserted by its crew sixty miles out of the city. Monday but one train went out. This afternoon First Vice Grand Master Lee, of the Railway Trainmen, received word that the six remaining yardmen at East St. Louis had quit work and signed an agreement not to resume until the present differences are settled.

Mobile, Ala., May 12.—General Manager C. S. Clarke of the Mobile and Ohio issued notice Monday inviting all old men to come back today without prejudice. The strikers say that none will come. General Manager E. T. Russell, in a statement to the public, claims that good progress has been made in supplying the places of the strikers. At this end of the line this success is not apparent.

UNCONDITIONAL SURRENDER.

Only Terms Upon Which Harvester
Employees Will Return to Work.

Chicago, May 12.—Despite several important concessions by the International Harvester company, including recognition of the union, representatives of the 6,000 employees of the company's Deering plant voted at a meeting to remain on strike until all the demands of the union were granted. The officials of the company made a proposition to the strikers to return to work pending a readjustment of wages by representatives of the company, the Federation of Labor and the Building Material Trades council. It was agreed also by the company that if the men would return to work under these conditions, no discrimination would be made against union men and that work of organization among the employees could continue openly. The strikers ask for the unconditional surrender of the company before returning to work.

Strike of Union Teamsters.

New Haven, Conn., May 12.—A strike for shorter hours and more pay was begun in the afternoon by 600 union teamsters in this city. Coal yards, trucking concerns and various factories are affected.

Moulders to Strike.

Erie, Pa., May 12.—Four hundred moulders of the local union will go out on strike today to enforce a demand for a raise of 15 cents per day.

GIVES UP WIFE AND FORTUNE.

Wisconsin Man Thus Saves Himself
From Loss of Family Estate.

La Crosse, Wis., May 12.—Mrs. Anna Lexius Yonkers, who received \$40,000 from some unknown benefactor living in Chicago, has been granted a divorce from Charles Yonkers of this city and thereby the divorced husband, a young man of prominence, saves himself from the loss of the Yonkers estate, which falls to him upon the death of his mother, Mrs. Yonkers, until recently employed in a laundry in Milwaukee, was given the fortune by a Chicago man, whose name she refuses to divulge, for a kindness shown him upon a train near La Crosse. Yonkers married her a year prior to that time, but was warned that unless a divorce was secured he would be cut off from the rich estate of his parents.

Though he stood between two fortunes, sure to lose one, Yonkers decided to give up the wife and take the larger fortune, and consequently agreed to the divorce.

THIRD BACH FESTIVAL.

Auspiciously Opened in the Moravian
Church at Bethlehem, Pa.

Bethlehem, Pa., May 12.—The third Bach festival was auspiciously opened in the large Moravian church in the evening after the announcement by the trombone choir from the church steeple. The church was well filled with many who are prominent in the musical work of the entire country. The programme comprised the cantata "Sleepers Wake, for Night is Flying," followed by the "Magnificat in D" for the second time produced in America, Theodore Thomas' Cincinnati chorus rendering it in 1879.

AGAINST INGERSOLL ESTATE.

Montana Supreme Court Upholds Decision of Lower Court.

Helena, Mont., May 12.—The supreme court Monday upheld the district court of Silver Bow county in the suit of Robert G. Ingersoll estate against contestants in the famous Davis will case. Ingersoll asked \$100,000 for his services in breaking an alleged will of the multi-millionaire. The contestants gave him \$5,000. He sued for the balance. The district court declared there was no cause for action.

TAXING OF RAILROADS.

Wisconsin Legislature Will Provide for a New System.

Madison, Wis., May 12.—The legislative conference committee on the ad valorem railroad tax reached an agreement Monday night and a bill providing for the new system of tax will be passed today.

VISITS BIG TREE GROVE

PRESIDENT ROOSEVELT GIVES AN
OBJECT LESSON ON EVILS OF
VANDALISM.

FOREST GIANTS DEFAECED

Chief Executive Expresses Disapproval of the Practice of Tacking Cards
Onto the Big Trees, and the Offending
Articles Are Taken Down on
His Intimating That Such Action
Would Please Him.

San Jose, Cal., May 12.—President Roosevelt gave the people of the country an object lesson on the evils of vandalism. While at Santa Cruz in the morning he was taken to the big tree grove. Almost the first sight that greeted his eyes as he entered the park was one of the huge trees with thousands of business and personal cards tacked on it. Tourists for years have been placing their cards upon this tree and it began to look more like a receptacle for bits of paper than it did one of the wonders of nature. The president instantly expressed his disapproval of such a procedure and a little while later when asked to make a speech, called attention to the defacement of the trees and said he hoped the people of California would see to it that such vandalism was stopped. He also intimated that he would like to see the cards taken down. Later when the president went for a walk through the park, the members of his party, together with members of the reception committee, tore down the cards. Later in the day the president signified his disapproval of placing large placards or signs on the trees. He was informed that the committee wished to name one of the trees after him.

While desiring that some other name be given to the tree, the president said he did not want to act churlishly in the matter, and if the committee really desired to name a tree after him he would not object. He stipulated, however, that the card bearing his name, that was to be placed on the tree, should not be more than three-quarters of an inch by an inch and a half in diameter. The president made speeches at Pajaro, Watsonville, Santa Cruz and San Jose, addressing the largest audiences of the day at this place. He was taken on a drive through the country here, stopping for a few minutes at Campbell, where he participated in the planting of a tree. The president spent the evening quietly on his car.

HAD DESIGNS ON ROOSEVELT.

Clay Taylor Under Arrest at San
Jose, Cal.

San Jose, Cal., May 12.—Clay Taylor, alias Professor Plutte, was arrested Monday for supposed designs upon the life of the president. He has served three terms in prison. It is alleged he wrote to the president advising him not to come here. He is also accused of recent anarchistic utterances.

COULD HARDLY BE WORSE.

Devastation Wrought by Santa Maria
Volcano Is Enormous.

Mexico City, May 12.—News brought here from Guatemala, by people who have seen the ruin wrought by the recent eruption of Santa Maria volcano, confirm all the previous reports. The situation could hardly be worse. "All the coffee plantations in the vicinity of the volcano," says Manuel Hurtado, just arrived here from Guatemala, "have been destroyed for all time. Ashes from ten to fifteen feet deep cover the country. In the neighborhood of the volcano, ashes are so deep that only some of the tops of tall trees can be seen. Scoria and ashes cover 1,000 square miles of land to a depth of from five to fifteen feet and 5,000 square miles to a depth of from one to five feet. One-third of the entire coffee crop has been destroyed. About 300,000 quintals of the choicest coffee have been lost and all land upon which it was grown is doomed to eternal sterility. As to whether or not the economic conditions produced by the natural catastrophe will tend to produce a revolution is a question I cannot answer. But I can say that President Cabrera has everything well in hand."

PROSPECTS OF PEACE.

Appear Brighter in the Balkans Than
for Some Time.

London, May 12.—The Times correspondent at Sofia says that he thinks the prospects of peace for the coming summer are more favorable now than at any time since January.

"At a meeting between the Bulgarian premier and the Ottoman commissioner held on Monday," the correspondent continues, "the question of the Turkish note was settled amicably. This ends a dangerous situation. In six weeks' time the entire rural population of Bulgaria and Macedonia will be occupied with the harvest."

IRISH LAND CONFERENCE.

May Be Reassembled to Amend the
Land Bill.

London, May 12.—A movement is on foot to reassemble the Irish land conference, under Lord Dunraven, with the object of arriving at an agreement on the desirable amendments to the Irish land bill. It is understood that the government favors this course as promising a minimum of discussion in committee of the house of commons.

Wild Cotton Market.

New York, May 12.—There was a wild market in cotton trading Monday with prices covering a range of \$1 a bale in this market from Saturday's closing quotations and \$1.50 to \$2 a bale at New Orleans.

SHAMROCK'S FINE WORK.

Lipton's New Challenger Shows Marvelous
Sailing Qualities.

Gourock, Scotland, May 12.—Shamrock III's windward work Monday was little short of marvelous, and even more so was the manner in which she carried way while going about. Sailing on the weather bow of the old boat she practically kept pace with her opponent with light winds and through smooth water.

Yachtmen are surprised at Mr. Fife's persistent avoidance of a formal racing trial, although Sir Thomas Lipton is anxious that the races go the set course, and the challenger has shown form adequate to secure a victory with any reasonable handicap. It is believed that Mr. Fife is not willing to give an opportunity of showing all that the Shamrock III is capable of between marks.

WOULD KILL HUNDREDS.

Chinese in San Francisco Confess to
Murder Conspiracy.

San Francisco, May 12.—Two of the four Chinese highbinder societies' presidents arrested for alleged complicity in the killing of Tom Yick, a member of the Chinese educational society, Friday night, have signed confessions in which they admit that a conspiracy existed among the different ramifications of the powerful See Yip society to put out of the way 300 members of the educational organization.

The other two men in custody insist that the confessions are absolutely false. They brand the educational society as a blackmailing organization and insist that the confessions were made to work the undoing of the See Yip society.

National Officers Elected.

Atlanta, Ga., May 12.—The national conference of charities and corrections elected the following officers: President, Jeffrey Brackett, Baltimore; vice presidents, Rev. Samuel G. Smith, St. Paul; Mrs. Nellie Peters Black, Atlanta; Max Herbert, Philadelphia; secretary, Joseph P. Beyers, Jeffersonville, Ind.; treasurer, Alfred O. Crozier, Wilmington, Del.; official reporter and editor, Mrs. Isabel C. Barrows, New York.

Russian Activity Denied.

Tokio, May 12.—A telegram has been received from the Japanese consul at New Chwang denying all the rumors of Russian military activity in that region.

A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only 50c at H. P. Dunn & Co.

STOLEN CASH RECOVERED.

Old Express Company Employee Said to Have Confessed to Theft.

Philadelphia, May 12.—Detectives have recovered all but \$200 of \$20,000 in currency stolen from the safe of the United States Express company, in transit from Pottsville, Pa., to Philadelphia. William J. Murphy, an express messenger in the employ of the company, who was arrested Saturday on suspicion of having some knowledge of the mysterious disappearance of the valuable package, is said by the police to have made a confession which led to the recovery of the money. He will be given a hearing today.

The money was consigned by the safe deposit bank of Pottsville to the Tradesmen's National bank of Philadelphia. Murphy received for the package, but when the safe was opened the money was missing. The messenger was questioned, but his replies were vague and he was taken into custody. Monday, the police say, Murphy admitted his guilt and accompanied the detectives to the house of a friend, where \$19,800 was found buried in the cellar. Murphy has been in the employ of the United States Express company for fifteen years.

PASSENGERS BADLY SHAKEN.

Attempt Made to Wreck a Car on an
Ohio Interurban Line.

Springfield, O., May 12.—An attempt was made at night to wreck a car on the Columbus, London and Springfield interurban line at Green's cut. An unknown person placed a piece of a cattedgeard and tie on the track and the car dashed into it. The front trucks left the track and the car ran seventy-five feet before it was stopped. Fortunately it did not go down the embankment or several persons would have been killed. There were thirty persons in the car. None was seriously hurt, although several were bruised and badly shaken up.
